400 Impulse Cards...  
...for language lessons

## Never be lost for words in a language tandem!

270 verb cards and 130 topic cards lend a German-English language tandem that little bit of structure you sometimes need. They are perfect for practising grammar, such as tenses, or can just provide that vital impulse when the topics are running out.

The cards cover innumerable everyday situations and objects, as well as activities and material from the business world.

Examples of everyday topics include: *saving money, spending money, donating money, tipping, celebrating New Year, celebrating birthdays, watching TV, skiing, being happy about, being annoyed at, spending time, sitting in a traffic jam, travelling* and many more.

Examples from the business world: *having a meeting, on a business trip, discussing something, being promoted, forwarding e-mails, notice* and many more.

The topic cards cover the *weather, eating, clothing, everyday objects, local customs, countries and compatriots.*
